

Corporate Workshop on Process Automation, PLC & Industrial Robotics

MR. PARAG DANDEKAR

Head of the Training

With 34+ years of industrial experience, I hold degrees in Electrical Engineering and Management, specializing in AC drives, PLCs, EOT cranes, switchgears, motors, transformers, and industrial automation—covering concept, implementation, and maintenance, along with expertise in plant systems and ISO 9000.

Why Join?

- Hands-on workshop to solve real shop-floor challenges.
- Strengthen fundamentals in Automation, PLC & Robotics
- Learn to make small changes that drive big improvements

Key Outcomes

- Solve process problems effectively
- Develop optimization & troubleshooting skills
- Enhance efficiency, reliability & productivity.
- Root cause analysis.
